

PAVING THE WAY WITH TREADS

GRADES K-3

This document lists the Colorado learning standards addressed by Paving the Way with Treads, True Robotics' grades K-3 robotics curriculum. Standards are grouped by subject and grade level, with codes and wording as published by the Colorado Department of Education.

TOTAL STANDARDS

MATHEMATICS

42 STANDARDS

Based on the Colorado state standards

GRADE	CODE	STANDARD
K-3	MP1	Make sense of problems and persevere in solving them.
K	K.CC.A.1	Count to 100 by ones and by tens.
K	K.CC.B.4	Apply the relationship between numbers and quantities and connect counting to cardinality.
K	K.OA.A.1	Represent addition and subtraction with objects, fingers, mental images, drawings, sounds (e.g., claps), acting out situations, verbal explanations, expressions, or equations.
K	K.OA.A.2	Solve addition and subtraction word problems, and add and subtract within 10, e.g., by using objects or drawings to represent the problem.
K	K.MD.A.1	Describe measurable attributes of objects, such as length or weight. Describe several measurable attributes of a single object.
K	K.MD.A.2	Directly compare two objects with a measurable attribute in common, to see which object has "more of"/"less of" the attribute, and describe the difference.
K	K.MD.B.3	Classify objects into given categories; count the numbers of objects in each category and sort the categories by count. (Limit category counts to be less than or equal to 10.)
K	K.G.A.1	Describe objects in the environment using names of shapes, and describe the relative positions of these objects using terms such as above, below, beside, in front of, behind, and next to.
K	K.G.A.2	Correctly name shapes regardless of their orientations or overall size.
1	MP2	Reason abstractly and quantitatively.
1	1.NBT.B.2	Understand that the two digits of a two-digit number represent amounts of tens and ones.

GRADE	CODE	STANDARD
1	1.NBT.B.3	Compare two two-digit numbers based on meanings of the tens and ones digits, recording the results of comparisons with the symbols $>$, $=$, and $<$.
1	1.OA.A.1	Use addition and subtraction within 20 to solve word problems involving situations of adding to, taking from, putting together, taking apart, and comparing, with unknowns in all positions, e.g., by using objects, drawings, and equations with a symbol for the unknown number to represent the problem.
1	1.OA.A.2	Solve word problems that call for addition of three whole numbers whose sum is less than or equal to 20, e.g., by using objects, drawings, and equations with a symbol for the unknown number to represent the problem.
1	1.MD.A.1	Order three objects by length; compare the lengths of two objects indirectly by using a third object.
1	1.MD.A.2	Express the length of an object as a whole number of length units, by laying multiple copies of a shorter object (the length unit) end to end; understand that the length measurement of an object is the number of same-size length units that span it with no gaps or overlaps. Limit to contexts where the object being measured is spanned by a whole number of length units with no gaps or overlaps.
1	1.MD.C.4	Organize, represent, and interpret data with up to three categories; ask and answer questions about the total number of data points, how many in each category, and how many more or less are in one category than in another.
1	1.G.A.1	Distinguish between defining attributes (e.g., triangles are closed and three-sided) versus non-defining attributes (e.g., color, orientation, overall size); build and draw shapes to possess defining attributes.
1	1.G.A.2	Compose two-dimensional shapes (rectangles, squares, trapezoids, triangles, half-circles, and quarter-circles) or three-dimensional shapes (cubes, right rectangular prisms, right circular cones, and right circular cylinders) to create a composite shape, and compose new shapes from the composite shape.
2	2.NBT.A.1	Understand that the three digits of a three-digit number represent amounts of hundreds, tens, and ones; e.g., 706 equals 7 hundreds, 0 tens, and 6 ones.
2	2.NBT.A.3	Read and write numbers to 1000 using base-ten numerals, number names, and expanded form.
2	2.NBT.B.5	Fluently add and subtract within 100 using strategies based on place value, properties of operations, and/or the relationship between addition and subtraction.
2	2.OA.A.1	Use addition and subtraction within 100 to solve one- and two-step word problems involving situations of adding to, taking from, putting together, taking apart, and comparing, with unknowns in all positions, e.g., by using drawings and equations with a symbol for the unknown number to represent the problem.
2	2.MD.A.1	Measure the length of an object by selecting and using appropriate tools such as rulers, yardsticks, meter sticks, and measuring tapes.
2	2.MD.A.3	Estimate lengths using units of inches, feet, centimeters, and meters.
2	2.MD.C.8	Solve word problems involving dollar bills, quarters, dimes, nickels, and pennies, using \$ and ¢ symbols appropriately.

GRADE	CODE	STANDARD
2	2.MD.D.9	Generate measurement data by measuring lengths of several objects to the nearest whole unit, or by making repeated measurements of the same object. Show the measurements by making a line plot, where the horizontal scale is marked off in whole-number units.
2	2.MD.D.10	Draw a picture graph and a bar graph (with single-unit scale) to represent a data set with up to four categories. Solve simple put-together, take-apart, and compare problems using information presented in a bar graph.
2	2.G.A.1	Recognize and draw shapes having specified attributes, such as a given number of angles or a given number of equal faces. Identify triangles, quadrilaterals, pentagons, hexagons, and cubes.
2	2.G.A.3	Partition circles and rectangles into two, three, or four equal shares, describe the shares using the words halves, thirds, half of, a third of, etc., and describe the whole as two halves, three thirds, four fourths. Recognize that equal shares of identical wholes need not have the same shape.
3	3.NF.A.1	Describe a fraction $\frac{1}{b}$ as the quantity formed by 1 part when a whole is partitioned into b equal parts; understand a fraction $\frac{a}{b}$ as the quantity formed by a parts of size $\frac{1}{b}$.
3	3.NF.A.2	Describe a fraction as a number on the number line; represent fractions on a number line diagram.
3	3.OA.A.1	Interpret products of whole numbers, e.g., interpret 5×7 as the total number of objects in 5 groups of 7 objects each.
3	3.OA.A.3	Use multiplication and division within 100 to solve word problems in situations involving equal groups, arrays, and measurement quantities, e.g., by using drawings and equations with a symbol for the unknown number to represent the problem.
3	3.OA.A.4	Determine the unknown whole number in a multiplication or division equation relating three whole numbers.
3	3.OA.B.5	Apply properties of operations as strategies to multiply and divide.
3	3.MD.B.3	Draw a scaled picture graph and a scaled bar graph to represent a data set with several categories. Solve one- and two-step "how many more" and "how many less" problems using information presented in scaled bar graphs.
3	3.MD.B.4	Generate measurement data by measuring lengths using rulers marked with halves and fourths of an inch. Show the data by making a line plot, where the horizontal scale is marked off in appropriate units—whole numbers, halves, or quarters.
3	3.MD.C.5	Recognize area as an attribute of plane figures and understand concepts of area measurement.
3	3.MD.C.6	Measure areas by counting unit squares (square cm, square m, square in, square ft, and improvised units).
3	3.G.A.1	Explain that shapes in different categories (e.g., rhombuses, rectangles, and others) may share attributes (e.g., having four sides), and that the shared attributes can define a larger category (e.g., quadrilaterals). Recognize rhombuses, rectangles, and squares as examples of quadrilaterals, and draw examples of quadrilaterals that do not belong to any of these subcategories.

READING, WRITING, AND COMMUNICATING

39 STANDARDS

Based on the Colorado state standards

GRADE	CODE	STANDARD
K	RW.K.1.1.b	Confirm understanding of a text read aloud or information presented orally or through other media by asking and answering questions about key details and requesting clarification if something is not understood.
K	RW.K.1.2.b	Add drawings or other visual displays to descriptions as desired to provide additional detail.
K	RW.K.1.2.f	Identify real-life connections between words and their use (for example: note places at school that are colorful).
K	RW.K.2.3.a.iii	Understand that words are separated by spaces in print (concept of word).
K	RW.K.2.3.b.i	Recognize and produce rhyming words.
K	RW.K.2.3.c.ii	Associate the long and short sounds with the common spellings (graphemes) for the five major vowels.
K	RW.K.2.3.c.iii	Read common high-frequency words by sight (for example: the, of, to, you, she, my, is, are, do, does).
K	RW.K.3.4.b	Demonstrate command of the conventions of Standard English capitalization, punctuation, and spelling when writing.
1	RW.1.1.1.b	Ask and answer questions about key details in a text read aloud or information presented orally or through other media.
1	RW.1.1.2.a	Describe people, places, things, and events with relevant details, expressing ideas and feelings clearly.
1	RW.1.2.3.b.i	Distinguish long from short vowel sounds in spoken single-syllable words.
1	RW.1.2.3.b.iii	Isolate and pronounce initial, medial vowel, and final sounds (phonemes) in spoken single-syllable words.
1	RW.1.2.3.c	Know and apply grade-level phonics and word analysis skills in decoding words.
1	RW.1.2.3.c.ii	Decode regularly spelled one-syllable words.
1	RW.1.2.3.c.iii	Know final -e and common vowel team conventions for representing long vowel sounds.
1	RW.1.2.3.c.vii	Read grade-appropriate irregularly spelled words.
1	RW.1.2.3.d	Read with sufficient accuracy and fluency to support comprehension.
1	RW.1.3.4.b	Demonstrate command of the conventions of Standard English capitalization, punctuation, and spelling when writing.
2	RW.2.1.1.a.iii	Ask for clarification and further explanation as needed about the topics and texts under discussion.
2	RW.2.1.1.b	Recount or describe key ideas or details from a text read aloud or information presented orally or through other media.
2	RW.2.1.2.a	Tell a story or recount an experience with appropriate facts and relevant, descriptive details, speaking audibly in coherent sentences.

GRADE	CODE	STANDARD
2	RW.2.1.2.d	Create audio recordings of stories or poems; add drawings or other visual displays to stories or recounts of experiences when appropriate to clarify ideas, thoughts, and feelings.
2	RW.2.2.3.a.i	Distinguish long and short vowels when reading regularly spelled one-syllable words.
2	RW.2.2.3.a.ii	Know spelling-sound correspondences for additional common vowel teams.
2	RW.2.2.3.d.i	Use sentence-level context as a clue to the meaning of a word or phrase.
2	RW.2.2.3.e.i	Identify real-life connections between words and their use (for example: describe foods that are spicy or juicy).
2	RW.2.3.1	Write pieces on a topic or book that state opinions and give supporting reasons.
2	RW.2.3.3	Write real or imagined narratives that describe events in sequence and provide a sense of closure.
2	RW.2.3.4.a.i	Use collective nouns (for example: group).
2	RW.2.3.4.b.iii	Use an apostrophe to form contractions and frequently occurring possessives.
2	RW.2.3.4.c	With guidance and support from adults and peers, focus on a topic and strengthen writing as needed by revising and editing.
3	RW.3.1.1.b	Determine the main ideas and supporting details of a text read aloud or information presented in diverse media and formats, including visually, quantitatively, and orally.
3	RW.3.2.1.a.i	Ask and answer questions to demonstrate understanding of a text, referring explicitly to the text as the basis for the answers.
3	RW.3.2.1.a.iii	Recount stories, including fables, folktales, and myths from diverse cultures; determine the central message, lesson, or moral and explain how it is conveyed through key details in the text.
3	RW.3.2.3.a	Know and apply grade-level phonics and word analysis skills in decoding words.
3	RW.3.2.3.c	Determine or clarify the meaning of unknown and multiple-meaning word and phrases based on grade 3 reading and content, choosing flexibly from a range of strategies.
3	RW.3.2.3.d	Demonstrate understanding of figurative language, word relationships and nuances in word meanings.
3	RW.3.3.3	Write real or imagined narratives that use descriptive details, have a clear sequence of events, and provide closure.
3	RW.3.3.4.e	With guidance and support from peers and adults, develop and strengthen writing as needed by planning, revising, and editing.

COMPUTER SCIENCE

16 STANDARDS

Based on the Colorado state standards

GRADE	CODE	STANDARD
K	CS.K.1.1	An algorithm is a set of step-by-step instructions to complete a task.
K	CS.K.1.1.a	Follow algorithms (step by step instructions) to complete tasks.
K	CS.K.6.1.a	Describe appropriate and inappropriate uses of digital devices.
1	CS.1.1.1.a	Create and follow algorithms (sets of step-by-step instructions) to complete tasks.
1	CS.1.1.1.b	Debug (identify and fix) errors in an algorithm or program that includes sequences and simple loops.
1	CS.1.1.3.b	Collect and present the same data in various visual formats.
1	CS.1.3.1	A computer program is a sequence of steps that is expressed in a computer programming language so that a computer can follow and perform the steps.
1	CS.1.3.1.a	Use appropriate software to perform a variety of tasks.
1	CS.1.3.1.b	Develop programs with sequences to express ideas or address a problem.
2	CS.2.2.1.a	Develop plans that describe a program's sequence of events, goals, and expected outcomes.
2	CS.2.3.1	A computer program is a sequence of steps expressed in a computer programming language so that a computer can follow and perform the steps.
2	CS.2.3.1.a	Select and use appropriate software to perform a variety of tasks and recognize that users have different needs and preferences for the technology they use.
2	CS.2.3.1.b	Develop programs with sequences and simple loops, to express ideas or address a problem.
2	CS.2.5.1.e	Identify devices in daily life that use AI technologies.
3	CS.3.1.1.a	Refine multiple algorithms (step by step instructions) for the same task.
3	CS.3.2.1.b	Demonstrate safe cloud computing practices.

SCIENCE

5 STANDARDS

Based on the Colorado state standards

GRADE	CODE	STANDARD
K	SC.K.1.1.b	Analyze data to determine if a design solution works as intended to change the speed or direction of an object with a push or a pull.
1	SC.1.2.1.a	Use materials to design a solution to a human problem by mimicking how plants and/or animals use their external parts to help them survive, grow and meet their needs.
2	SC.2.1.1.b	Analyze data obtained from testing different materials to determine which materials have the properties that are best suited for an intended purpose.

GRADE	CODE	STANDARD
2	SC.2.3.2.a	Compare multiple solutions designed to slow or prevent wind or water from changing the shape of the land.
3	SC.3.1.2.b	Define a simple design problem that can be solved by applying scientific ideas about magnets.

SOURCES & NOTES

- The official mathematics, English language arts, computer science and science standards for Colorado, as published by the Colorado Department of Education.
- Codes and standard wording are reproduced from the official standards documents. Clarification statements, examples and assessment boundaries are omitted.
- Grade shows the grade level at which True Robotics lessons address each standard. A range (for example K-2) marks a standard written for a grade band.
- Standards text remains the property of its publisher and is reproduced here for alignment reference only.
- A lesson-level crosswalk is available on request at info@truerobotics.org.
