

MEDICAL ROBOTICS

GRADES 8–12

This document lists the Idaho learning standards addressed by Medical Robotics, True Robotics' grades 8–12 robotics curriculum. Standards are grouped by subject and grade level, with codes and wording as published by the Idaho State Department of Education.

TOTAL STANDARDS

SCIENCE

4 STANDARDS

Based on the Idaho state standards

GRADE	CODE	STANDARD
8	MS-LS-1.3	Make a claim supported by evidence for how a living organism is a system of interacting subsystems composed of groups of cells.
8	MS-PS-2.2	Plan and conduct an investigation to provide evidence that the change in an object's motion depends on the sum of the forces on the object and the mass of the object.
9–12	HS-LS-1.2	Develop and use a model to illustrate the hierarchical organization of interacting systems that provide specific functions within multicellular organisms.
9–12	HS-LS-1.3	Plan and conduct an investigation to provide evidence that feedback mechanisms maintain homeostasis.

COMPUTER SCIENCE

3 STANDARDS

Based on the Idaho state standards

GRADE	CODE	STANDARD
8	6-8.CT.5.4	Create, analyze, and modify control structures (if-else statements, switch-case statements, looping, etc.) to create programming solutions.
9–12	9-12.CS.5.4	Decompose a complex problem using abstraction through methods and/or classes.
9–12	9-12.CS.3.4	Identify and evaluate the beneficial and harmful effects of computing innovations on behavior and culture.

SOURCES & NOTES

- The official science and computer science standards for Idaho, as published by the Idaho State Department of Education.
- Codes and standard wording are reproduced from the official standards documents. Clarification statements, examples and assessment boundaries are omitted.
- Grade shows the grade level at which True Robotics lessons address each standard. A range (for example K-2) marks a standard written for a grade band.
- Standards text remains the property of its publisher and is reproduced here for alignment reference only.
- A lesson-level crosswalk is available on request at info@truerobotics.org.
